□ **Additional Information about the District Hygienic practices:**

□ **Female participation about Hygienic practices more enthusiastic:**

- The female participation mostly in all GP's was more enterprising than the male counterparts.

□ **Seven Star Village Parameters**

- The Chief Executive Officer, Zilla Parishad, Satara (Mr. S P Kadu-Patil, IAS.), with the support of ZP staff has initiated a novel method of introducing criteria of: "Accreditation of Rural Communities to human development parameters", by developing a bench mark of GP's fulfilling the indicators listed within "**Seven Star Village Parameters**". On achieving of every parameter the village gets a star. The village can thus get seven stars on achieving all the seven stars. The system helps to achieve the following objectives:-

1. Spread awareness regarding the various human development indicators;
2. Allow the village to make a self-assessment of its own achievement on HD indicators;
3. Allow the Block and district level administrators to monitor HD indicators at their level;
4. Promote a competitive atmosphere within villages for striving towards attainment of HD indicators through community participation and thorough best utilization of the government schemes.

5. Seven Star Human Development Parameters are: -

1. Health;
2. Child and women welfare;
3. Sanitation;
4. Education;
5. Environmental issues;
6. Livelihood issues;
7. Governance and Social equity issues.
